

The American Board  
of  
Facial Plastic and Reconstructive Surgery

Founded in the public interest and in accordance with the policies  
of the American Medical Association, the Board certifies that

Sheldon B. Babaker, M.D.

has completed a course of graduate study approved by the Accreditation Council for Graduate  
Medical Education and a year's restricted clinical practice experience, and

has successfully passed the qualifying examinations in the disciplines of otolaryngology, ophthalmology,  
dentistry, and reconstructive surgery of the face, head, and neck, and

has met the additional requirements for board certification in facial plastic and reconstructive  
surgery as prescribed under the authority of this board.
